
FSM / WS-GNI: 30 runs; finite medians and interquartile bands
mean squared innovation
Objective
State iteration
Condition number (finite samples)
2-norm condition
Raw Hessian
Solver matrix
Evaluation iteration
Raw signed curvature
Minimum eigenvalue
Evaluation iteration
Gradient norm
Norm
Evaluation iteration
Applied step norm
Norm
Evaluation iteration
Fractions among observed runs
Fraction
Singular raw
Singular solver
Negative curvature
Solver fallback
Evaluation iteration
